

Support H.R. 2324:
A Bill to Repeal the Authorization for Use of Military Force

Urge our Representatives to cosponsor this bill. Neither **Jim McGovern** nor **Richard Neal** (*nor any other MA Rep*) is a cosponsor.

H.R. 2324 calls for the **repeal** of the **Authorization for the Use of Military Force**, or AUMF, on December 31, 2014, congruent with the end of the US war in Afghanistan. The bill asserts that the AUMF, passed in the wake of the attacks of September 11, 2001 to use force against those responsible, has served its purpose and must be repealed as the U.S. military withdraws from Afghanistan.

The House of Representatives has come within 33 votes of passing a repeal of this "blank check" that has kept our country in a state of endless war since 2001. This year, repeal of that law is within reach.

This blank check, the Authorization for the Use of Military Force, has been used as the sole legal justification for

- the war in Afghanistan,
- deadly drone attacks,
- detention at Guantanamo Bay,
- warrantless wiretapping
- and military interventions around the world.

Please contact your representative to ask him or her to support repealing this law.
